

POSITION TITLE: Developer

About S&S Firestone, Inc.

With more than 30 locations across 9 states, **S&S Tire** has the buying power to deliver low prices on quality brand tires. We are committed to providing an excellent tire-buying experience and reliable service in a customer-friendly environment. It's the best of both worlds: the low prices of a national chain plus the personal service and great relationships you only get from a strong family owned business.

S&S Tire is one of the largest purchasers of some of the world's most recognized tire brands as well as leading some of the country's best Bandag dealerships.

Leading Brands

S&S Tire markets some of the world's most recognized tire brands, including: Bridgestone, Firestone, Fuzion, Goodyear, Dunlop, Kelly Tires, Yokohama, Continental, General Tire, Mastercraft, and Cooper Tires.

Our unique business strategy provides us with an unmatched leadership position and ability to build and sustain loyalty to our brands. Our strategy allows us to move with greater speed to better serve our trade customer and end consumers across our locations.

Currently, we are seeking qualified candidates for a **Human Resources Generalist** to join our Lexington, KY Corporate Office.

Day to Day (what a typical day or week looks like in this role)

We are looking for a PHP developer who is dedicated to his craft, writes code that is proud of and can hit the ground running. We need you to write beautiful, fast PHP to a high standard, in a timely and scalable way that improves the code-base of our products in meaningful ways. Experience with JavaScript, Python, and ASP would be a plus.

You will be a part of a creative team that is responsible for all aspects of the ongoing software development from the initial specification, through to developing, testing and launching.

What You Will Do

- Write "clean", well designed code
- Produce detailed specifications
- Troubleshoot, test and maintain the core product software and databases to ensure strong optimization and functionality
- Contribute in all phases of the development lifecycle
- Follow industry best practices
- Develop and deploy new features to facilitate related procedures and tools if necessary

What You Need To Succeed

- Proven software development experience in PHP
- Understanding of open source projects like MySQL,

- Understanding of open source projects like MySQL,
- Demonstrable knowledge of web technologies including HTML, CSS, Javascript, AJAX, etc
- Strong knowledge of the common PHP or web server exploits and their solutions
- Familiarity with limitations of PHP as a platform and it's workarounds.
- Good knowledge of relational databases, version control tools and of developing web services
- Experience in common third-party APIs (Google maps, Google charts)
- Experience building modern web services (SOAP, RESTful, XML)
- Some knowledge of Linux command line
- Passion for best design and coding practices and a desire to develop new bold ideas
- BS/MS in Computer Science, Engineering, or any related field.

Endless Opportunities

S&S Firestone, Inc. has big plans for the future, just like you. We understand that it takes preparation and hard work to get there. So, we offer challenging purpose, ownership of your role, great teams, and tools to build your capability. In our performance-based setting, you can take your career in exciting new directions - and as far as you want to go.
